NETWORKING

Coordination of the “wood network” within the Greater Region

Collaboration between owners -resource producers- & end users - Wallonia

Innovation workshop over CLT & sustainable construction - Kaiserslautern

Hackathon 5*5 dédié à la construction & rénovation – Sarrebruck

Thematic conference on “Hybrid wood-concrete construction systems” - St. Vith

TOOLS

4 key products!

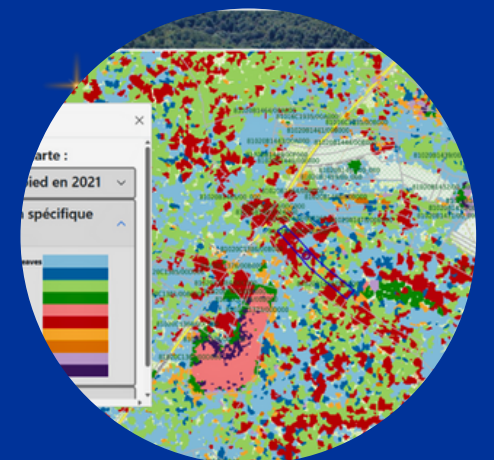

The **WoodWave** information & innovation platform www.woodwave-gr.eu is online.

The **Catalog of Future Species** highlights those that show significant potential for use in construction.

A first **showcase brochure**, “Le Gymnase de Jean Lamour” (The Jean Lamour Gymnasium) is released in Nancy

A very high-resolution **map of forest composition**, is produced at the level of individual trees or tree groups for Wallonia.

EVENTS

Numerous opportunities to increase our visibility & notoriety !

Participation in the **Forum Bois Construction** - Paris

Smart Forest | Forêt intelligente ! Quand la technologie s'envolera sur nos forêts - Esch-sur-Alzette

Study trip to Voralberg -Austria- drawing the attention of 50 professionals to this inspiring project

Mid-term event: **Wood, a catalyst** - Saarland- addressing training, technologie & future species

All partners of the
W.A.V.E. project wish you:
*Season's Greetings &
a Happy New Year!*
